ATTENTION ALL OWNERS OF DOGS NOT REGISTERED WITH ASCA. PLEASE READ.

Due to the large number of non-ASCA registered dogs using its programs, ASCA has found it necessary to charge a one-time fee to track each non-ASCA registered dog's scores. This is applicable only if you want to earn ASCA titles. To enroll one or more non-ASCA registered dogs the owner must pay a fee of \$8.00 to become a Service Member for any year in which a new dog is enrolled and then a one time fee of \$10.00 per dog. If you have questions please contact the course director.

Saturday evening - Boyce's famous BBQ by reservation only. Notify course director by May 19, 2010 if you will be joining us.

The Tenth Annual...

Golden State Series Buckle

This buckle is to encourage participation in the California Stockdog Trials for the upcoming year and is for Australian Shepherds only. There will be 3 Buckles awarded from a combination of 4 trials: The Silver Bullet April 16,17 & 18, the Delta Trial, the COAST Independence Day trial July 3, 4 & 5, and the COAST Cayucos Cup August 21 & 22.

Synopsis of Rules (A complete copy of rules will be sent upon request)

* To compete in the Series you must enter at least 3 of the 4 trials.

* You must declare which buckle you will be competing for at the beginning of the series.

* At each trial, you must enter each division of stock: ducks/sheep/cattle each day except for the July Trial, where you must enter ducks/sheep each day.

* At a trial where more than one division of stock is available, the first class of the day will count towards qualification for the Series.

* Where more than one division is offered on the same day (for example, multiple sheep trials), it is up to the Handler's discretion whether or not to enter multiple times. If multiple divisions are entered, all scores entered will be used to calculate the dog's daily average and scratching your run after close of pre-entries will result in a zero being calculated into your average.

* Each trial day, all stock scores will be totaled and divided by the number of classes of stock entered.

* Daily averages will be added together for a total high combined score.

* Only scores from the "regular" classes or FEO classes will count towards the average (the Novice or Junior class will not count).

* Post-Advanced and Advanced will be weighted the same (when both are offered), but only the scores from the Saturday & Sunday trials will count toward the buckle.

* If you enter a trial on the first day of entry and do not get into the trial your scores will be averaged so that you are not penalized for not being drawn for the trial.

* To qualify for the started buckle a dog must be entered in at least two started divisions on the first trial day the dog competes.

* To qualify for the open buckle a dog must be entered in at least two open divisions on the first trial day the dog competes.

* To qualify for the advanced buckle a dog must be entered in at least one advanced division on the first trial day the dog competes. The dog may be non-WTCH'd or WTCH'd.
